## EXPERIENCE

### Bungie, Bellevue, WA

#### UI Design Intern

2020

As the UI Design intern on Destiny 2's UI/UX team, my responsibilities are to learn as much as I can while maintaining a high level of quality. I produced various assets, high-fidelity UI mockups, and 2D and 3D icons consistent with Destiny 2's aesthetic. I shipped over 100+ game assets for *Beyond Light* expansion.

### First-Generation Initiatives, Denver, CO

#### Graphic Design and Marketing Coordinator

2020

My role at First-Generation Initiatives is to spread awareness, increase student engagement, and be an advocate for first-gen college students. I create flyers, programs, and brochures. I also manage our social media marketing.

### Freelance Graphic Designer

2015-present

I work as a freelance designer completing various projects from user interfaces to paintings. My body of work includes projects such as children's books, logo design, video game art, iconography, UI/UX art, and concept art.

### Center for Visual Art, Denver, CO

#### Graphic Designer

2018-2019

As the graphic designer, my role encompassed a wide variety of print production and art installation. I created flyers, posters, signs, and vinyl for each gallery show. I also created social media posts and advertising suites for both print and web formats.
